\*Combined total of all species.

‡See page 7 for sunrise/sunset table.

## HARVEST SURVEY NEEDS YOUR RESPONSE

When you purchase your Migratory Bird Hunting Permit, the vendor asks you a series of questions about your last year's migratory bird hunting activities. The answers you provide place you in a category with other migratory bird hunters by type and amount of hunting activity. This allows the Conservation Department and the U.S. Fish & Wildlife Service, through the cooperative effort known as the Migratory Bird Harvest Information Program, to use harvest surveys to sample hunters from each category. This survey information is extremely important and is considered when establishing migratory bird hunting seasons each year. Your cooperation in supplying this information is vital. If you are one of the Missouri migratory bird hunters selected to receive a survey, please complete and return it even if you did not hunt or were unsuccessful while afield. All the information you provide is important. By completing the survey, you are doing your part to help manage these important migratory birds.
